The Management Board of Lubelski Węgiel Bogdanka S.A. (“Company”) hereby announces that on 30 December 2019 it has been informed about obtaining by the Company of a mining licence for the **“Lublin Coal Basin — areas K-6 and K-7”** deposit in the Cyców Mining Area. The licence covers exploitable resources estimated at about 66 million tonnes of coal.

Obtaining the abovementioned license is yet another step in expanding the resource base, which allows production to be planned in a long term, ensures a stable supply of resources for the mine and secures its development.
