

SŁAWOMIR KRENCZYK

Vice-President of the Management Board for Development

Since May 1, 2024, he has served on the Management Board of LWB as Deputy President for Development, with responsibility for sales, procurement, and investments. He is also involved in, among other things, the development of rail infrastructure and projects related to new business lines.

He gained managerial experience in public companies, as well as managing foundations and projects. At the level of representation bodies, he was responsible for legal and organizational, communications and marketing, and development areas, among others. He has held directorships and management positions in public companies among others, at Enea S.A in the areas of communications, marketing and community relations. As part of his business activities, he has implemented consulting and training projects for local and international entities in the energy and raw materials industry.

He was responsible for the energy and climate program of the Warsaw Security Forum, coordinating high-level experts from Poland, the US, the EU and Ukraine. He has authored and co-authored reports and publications on the energy transition, and has participated in public industry debates. In the debates, he points in particular to the importance of aspects of industrial competitiveness and security of energy supply.

He graduated from the Faculty of Law at the Catholic University of Lublin, and completed postgraduate studies at the Warsaw School of Economics (SGH), the University of Commerce and Services (WSHIU) in Poznań (Executive MBA) and the University of Social Sciences (SAN) in Łódź (doctoral seminar). He has experience as a university lecturer. He is preparing a doctoral dissertation on the transformation of Bogdanka.
