Dividend policy

The dividend policy forming part of the approved Strategy for the 2013÷2015 period provides for the payout to Company shareholders of a dividend standing at 60% of the consolidated net profit.

The adoption of such dividend payout ratio will allow the Company, on the one hand, to finance development investments using part of the net profit, while on the other hand it will guarantee the shareholders a rate of return on the investment in Company shares in the form of an above-average dividend for the coal-mining sector.

The change in the Management Board's recommendation with regard to the dividend payout ratio can be attributed to the change in the assumptions concerning:

- Company growth and further expansion plans;
- execution of the adopted investment program;
- plans to maintain adequate cash flow;

as well as:

- net profit recorded in the Company's separate financial statements;
- projected investment expenditure and other capital outlays;
- current possibilities and costs of obtaining debt financing;
- decision taken by the General Shareholders Meeting establishing a dividend payout rate different to that recommended by the Management Board;
- other factors having significant impact on the Company's financial standing.

Dividend for 2013

On 12 June 2014 the Annual General Shareholders Meeting adopted a resolution on the distribution of net profit for 2013.

The net profit generated by the Company in 2013 amounting to PLN 326,529,845.95 (three hundred twenty-six million five hundred twenty-nine thousand eight hundred and forty-five zlotys 95/100), was distributed by the Annual General Shareholders Meeting as follows:

1. The amount of PLN 197,278,822.00 (one hundred ninety-seven million two hundred seventy-eight thousand eight hundred and twenty-two zlotys 00/100) shall be distributed as dividend. i.e. PLN 5.80 (five zlotys 80/100) per share.

Number of shares subject to dividend is 34,013,590.
